

Types of Leadership

Servant

Leads and focuses on the needs of their team. Cares about the well-being, leads with empathy and prioritizes active listening

01

Transformational

Focused on inspiring and motivating their team to go beyond the expectations through the shared vision and personal growth

02

Democratic

Collaborative, team effort in decision making. It can promote teamwork and boost morale and ownership, but can create a slow process.

03

Autocratic

Decision-making leadership from the top and top only. Does not listen to others and has total control. Can help in crisis but hinders growth

04

Laissez-Faire

"Hands-Off" style that relies on the skillset and experience of the players/employees to complete tasks on their own

05

Transactional

Leads on a system built on rewards and punishment. It's about clear structure, supervising over growth, and cares more about operations
